Roderick Lewis Q.C.,
Chief Election Officer.

And the House having met,

The Honourable the Lieutenant Governor, having entered the House, took his seat on the Throne.

Mr. Wells, the Government House Leader then said:

"I am commanded by the Honourable the Lieutenant Governor to state that he does not see fit to declare the causes of the summoning of the present Legislature of this Province until a Speaker of this House shall have been chosen according to law, but today at a subsequent hour His Honour will declare the causes of the calling of this Legislature."

His Honour was then pleased to retire.

And the Clerk having called for nominations for the office of Speaker, the Premier, Mr. Davis, addressing himself to the Clerk, proposed to the House for their Speaker John Melville Turner, Member for the Electoral District of Peterborough, which motion was seconded by Mr. Smith, and it was,

Resolved, That John Melville Turner, Esquire, do take the Chair of this House as Speaker.

The Clerk having declared the Honourable John Melville Turner duly elected, he was conducted by the Premier and Mr. Smith to the Dais, where standing on the upper step, he returned his humble acknowledgment to the House for the great honour they had been pleased to confer upon him by choosing him to be their Speaker.

And thereupon he sat down in the Chair and the Mace was laid upon the Table.

The House then adjourned during pleasure.

The Honourable the Lieutenant Governor then entered the House and took his seat on the Throne.

Mr. Speaker then addressed His Honour to the following effect:

May it please Your Honour,

The Legislative Assembly have elected me as their Speaker, though I am but little able to fulfil the important duties thus assigned to me.

If, in the performance of those duties, I should at any time fall into error, I pray that the fault may be imputed to me and not to the Assembly whose servant I am, and who, through me, the better to enable them to discharge their duty to their Queen and Country, hereby claim all their undoubted rights and privileges, especially that they may have freedom of speech in their debates, access to your person at all seasonable times, and that their proceedings may receive from you the most favourable consideration.

The Government House Leader then said:

Mr. Speaker,

I am commanded by the Honourable the Lieutenant Governor to declare to you that he freely confides in the duty and attachment of the Assembly to Her Majesty's person and Government, and not doubting that the proceedings will be conducted with wisdom, temperance and prudence, he grants and upon all occasions will recognize and allow the constitutional privileges.

I am commanded also to assure you that the Assembly shall have ready access to His Honour upon all suitable occasions, and that their proceedings, as well as your words and actions, will constantly receive from him the most favourable construction.

The Honourable the Lieutenant Governor was then pleased to open the Session with the following gracious speech:

Mr. Speaker and Members of the Legislative Assembly:

I extend greetings to you all, on behalf of our Sovereign, on this, the opening of the First Session of the Thirty-second Parliament of Ontario. I welcome to this Parliament those Honourable Members who will be serving their fellow citizens in this capacity for the first time, as well as those who have been returned to office. May I express the wish that your hopes and objectives and those of your constituents will be fulfilled through the opportunities for service afforded you as individual members and, together, as the Legislature of this great and historic Province.

Mon gouvernement prend acte de la responsabilité que lui a confiée la population de l'Ontario et il accepte cette responsabilité. Il s'engage, dans l'administration de ses affaires, à servir loyalement les intérêts de la province at du pays tout entier.

We wish to record the pleasure we share, along with all Canadians, in the upcoming marriage of His Royal Highness, the Prince of Wales. As well, Ontario will be honoured with visits by Her Majesty the Queen Mother, and by Her Royal Highness, the Princess Margaret, later this summer. These events afford an opportunity for an expression of the pride we feel in the heritage that has been ours as a constitutional monarchy.

In the business of our nation, the tensions and stresses of the sustained constitutional debate continue to dominate Canadian public affairs.

The Government and people of this Province are resolute in their desire for patriation of the Canadian Constitution, while preserving our existing constitutional monarchy, in both form and substance. We seek to protect human and democratic rights, and to assure freedom of movement for all Canadians in the final step to constitutional maturity for this nation.

While my Government regrets the lack of accord between several of our sister provinces and the central government, we continue to hold a positive perspective on the outcome. For its part, this Province will continue to strive for patriation of the Canadian Constitution, with a fair amending formula, and with an entrenched Charter of Rights. This has been our position since the Federal-Provincial Conference on the Constitution in February 1969.

But the Constitution, despite its great importance, must not be allowed to distort the public agenda of Canada. Inflation, economic growth, Federal-Provincial fiscal and tax-sharing arrangements, social policy and stability, energy pricing and supply, all constitute matters which must be urgently addressed, so that our nation does not falter for want of the critical decisions necessary to sustain our economic prosperity and security.

The problem of inflation, in particular, must be faced in a comprehensive way, on a national front and without delay. Major opportunities for action lie in the key Federal areas of monetary and fiscal policy-planning. The question of energy pricing and supply remains unresolved and, in the absence of a fair distribution of resource benefits among all provinces, unnecessary damage is caused to the economy of the nation as a whole. Decisive and reasonable actions are essential if this problem is to be overcome. My Government will continue to press for cohesive national leadership

in these crucial areas, and repeats the call for a Conference of First Ministers, at an early date, as the forum for such action.

Existing Federal-Provincial fiscal arrangements, which are due to expire at the end of this fiscal year, are being reviewed between Ottawa and the Provinces. While Ontario welcomes the opportunity to participate in these important discussions, we will oppose any attempts to reduce a fair Federal contribution to major programs in health, education and social services.

In the particular interests of the Province of Ontario, economic leadership and policies aimed at promoting the well-being of our people are vital elements of the framework of freedom and opportunity that must serve us in the years ahead.

We are a strong and vigorous Province. Our continuing vitality, despite the pressures of the times, owes no little credit to the foresight and planning of past years, which have provided the firm economic and social foundation of the Ontario of today. Reinforcing this foundation to ensure future growth and development is crucial to the strength of the Ontario of tomorrow.

The new Industrial Leadership and Development program, an explicit program for economic expansion and growth, will be the basic industrial development blueprint of this Government. This 5-year program, as earlier announced, comprises a re-ordering of priorities and the commitment of a $1.5 billion development plan for specific projects. This program will be directed by a Board of Ministers whose responsibilities are key to the creation of the wealth on which a secure future will depend.

The BILD program, as it is called, is a coherent and prudent plan for Ontario, and one which is in accordance with the objectives and scope of the Government's ongoing fiscal strategy. It is the aim of the Government, during this Session, to make substantial progress along this course.

A major instrument in the program will be the newly established Office of Procurement Policy, which will play a role in mobilizing public sector purchasing power to foster Canadian manufacturing and technology.

Greater use of electricity, increased commitments for skills training and manpower retraining, concentrated development of high technology industry, specific programs for resource development, programs for community economic development, and expansion of our transportation systems, will be critical components of an industrial expansion plan for all regions and economic sectors in Ontario.

Legislation will be presented to amend the Power Corporation Act to enable Ontario Hydro to sell industrial steam to the Ontario Energy Corporation, as a major step forward in the establishment of the Bruce Energy Centre. Construction of a steam pipeline will begin this year.

Ontario's wide-ranging energy conservation and oil substitution programs will be reinforced by a new Residential Electrical Services program. Legislation will be enacted to enable Ontario Hydro and the municipal electric utilities to carry out home energy audits and to provide homeowner loans for energy conservation, electric wiring upgrading and conversion to electric heating.

Further initiatives will be taken by the Ministry of Energy in such areas as hydrogen, fusion, solar energy, alternative transportation fuels and small hydraulic development.

Ontario has a unique opportunity to use its world leadership in electrical generation technology to produce hydrogen. We stand to gain enormous long-term benefits from early entry into the hydrogen age. Approaches have been made to the Federal Government suggesting a joint funding program. In the meantime, the Province will undertake major initiatives to support existing centres of recognized leadership in this field, and will proceed with its previously announced commitment to establish an Institute for Hydrogen Systems.

High priority is placed on industrial and technological development, from the viewpoint of the potential for job creation, as well as for the advancement of industry itself.

The deployment of our human resources is a vital and integral part of the BILD program. Without question, Government has a role to play—to assist in opening the door to employment opportunities. But it is the role of private enterprise to provide the wide range of choices which our society requires. At the same time, our society must be able to rely on the resourcefulness and will of its members.

It is a right in a democratic society that we are free to fulfill our potential as individuals in the vocation of our choosing. Still, in practical terms, there is a continuing need for a better balance between work opportunities and skills, particularly in the growing high technology field.

The Government will expand the Training in Business and Industry initiatives of the Ministry of Colleges and Universities and provide a major funding allocation for technical and technological equipment for the Province's Colleges of Applied Arts and Technology. A Community Counselling program will be developed to tap the resources of our young people and guide them toward worthwhile and productive jobs. Efforts are being made to co-ordinate and share the costs of some of these initiatives with the new Federal labour adjustment program.

A new International Intern program will aim to add more international marketing specialists to the Ontario business community over the next two years. In this proposed joint venture with Ontario business companies, the Ministry of Industry and Tourism will share the salary costs of posting marketing and sales representatives for training and experience in important foreign markets.

In step with these training initiatives, a Biotechnology Company, a joint venture already announced, will be the base of a methodical and solid advance toward high-level industrial growth, job creation and world-scale competitive leadership in vital areas of economic activity.

The Province will proceed to develop specific research innovation centres in autoparts technology, computer-assisted manufacturing and robotics, and microelectronics. A special multi-million dollar fund to finance new high technology firms will be established through the Ontario Development Corporations.

You will be asked to enact legislation to establish the IDEA Corporation. The purpose of this agency will be to promote and finance the development of new technologies and facilitate their industrial application. The Corporation will also have a key role to play in integrating and linking the research and development resources of government, the university community and industry.

In the area of resource development, the Province will proceed with the BILD Forest Management program, construction of forest seedling cultivation centres in Northern Ontario, and a major gold sampling and custom milling program. Discussions will be pursued with private mining and forestry companies and with machinery producers for a joint resource-machinery initiative in the Sudbury area.

Existing Provincial farm support programs will be supplemented by specific measures to assist the food processing and tender fruit growing industries. A major objective is to expand and improve processing capability for crops produced in Ontario.

A full-scale fruit and vegetable storage program will be introduced to upgrade and expand present storage, grading and packing capacity. The target over the next five years is to reduce imports by at least one-third, and substantially increase farm incomes.

Ontario is determined to ensure that its agricultural sector remains among the most modern in the world. This will require careful and constant attention to forces outside the industry, among which the current impact of high interest rates is a matter of great concern.

The Ontario Government's commitment to public transportation is a matter of record. In particular, over the last decade, Provincial policies and financing have been the mainspring of local public transit systems in urban centres throughout the province, and of a successful and growing transportation technology industry.

Legislation will be amended to allow for additional subsidies for the purchase of electrified trolley bus equipment by local municipalities. A long-term schedule of radial road improvements will be undertaken to accommodate the movement of people and of increasingly heavy commercial traffic in the Toronto-Niagara corridor. The Government will extend the municipal airport program of the Ministry of Transportation and Communications to all of Ontario.

My Government has every confidence that the development of an Intermediate Capacity Transit System by the Urban Transportation Development Corporation is but the beginning of an auspicious future for the industry. Additional investments in UTDC will allow for production facilities in Ontario. A feasibility study for an ICTS system for the City of Hamilton is expected to be ready by this fall, and negotiations will begin with Metropolitan Toronto for an ICTS line in this Area. Design work for electrification of the GO commuter rail system from Oakville to Pickering is under way.

The final report of the Task Force on Provincial Rail Policy, which will be published shortly, will provide further direction for the Province's expanded role in rail transportation. As well, the Province is committed to significant upgrading of our harbours and marine transportation capability. It is anticipated that the report of the Great Lakes/Seaway Task Force will also identify further areas for Provincial involvement.

Economic growth and technological progress and innovation are not sufficient goals in and of themselves. They are, more importantly, instruments for financing social progress, and improving quality of life, and public safety and security that are so fundamental to Ontario's society.

Ontario is well served by the wide range and strength of the established institutions in our society. The task before us—an enviable one, compared with many jurisdictions—is to ensure, with continued foresight and planning, that we are able to adapt to the demands of the future, and so continue to enhance and enrich life in this Province.

Efforts toward improved high standards of environmental protection will be intensified. We stand to lose much if we do not pursue and make use of the advantages of modern science and technology. With these concerns in mind, the Government proposes to introduce legislation charging the Ontario Waste Management Corporation with the responsibility for establishing a world-class facility for the treatment and safe disposal of liquid industrial waste.

Potential health hazards from the manufacture, use and disposal of chemical products will be the primary interest of the new Ontario Centre for Toxicology. A major government role is envisaged in this venture, which will result from joint efforts of the Universities of Toronto and Guelph. The Centre will be a co-operative undertaking with the private sector and the university community and will serve as a board-based training, research and assessment institution.

The Government will continue an aggressive campaign to counter the threat posed by acid rain and to have controls applied against sources contributing to the problem, both in Ontario and from beyond the Province's borders.

My Government is committed to providing continued strong support for health care, education, day care, and those in need, as well as for the vast number of services that are an integral part of social policy development and the mainstay of our social well-being. The Provincial pattern has been to decentralize much of the operational responsibility for these services, to achieve greater flexibility in their delivery. The Government reaffirms this policy as a means of recognizing and, to the greatest possible extent, meeting the individual needs of all members of the community.

Continuing emphasis will be placed on community living for elderly and disabled persons, enabling them to live in their own homes. At the same time, accommodation needs and care of others who are unable to be relatively independent must be assured. To this end, a 5-year provincial program will be started this spring to increase the capacity and improve the standards of homes for the aged throughout the province. This will be carried out in co-operation with municipalities and charitable organizations.

Pensions have become an increasingly important issue for larger numbers of our people. The recently released Report of the Royal Commission of Pensions is a most extensive study of this matter. In order that its recommendations may be widely understood and carefully reviewed, this House will be asked to appoint a Select Committee to examine the Report.

The importance of the role of the family in our society cannot be too strongly emphasized. This has been a consistent view of the Government, and one which it

upholds in a range of accepted Provincial policies and programs, Government's activities, therefore, will continue to reflect and respond to the nature of our people and to their desire that family life and other traditional values remain an influence and force in the Ontario way of life.

There are a multitude of recreational and cultural activities that do so much for the enjoyment of leisure time in this Province. Among the particular events that deserve special attention in the coming year will be the 1981 Canada Games, scheduled to be held in Thunder Bay in August. This will be the first time the Canada Games will be staged in Ontario.

Ontario has endorsed the United Nations designation of 1981 as the International Year of Disabled Persons. Budgetary increases have been provided for existing provincially funded services for the disabled, including transportation programs and the provision of physical amenities in public buildings and community facilities. In addition, the Province has earmarked a special $12 million fund to initiate new programs, and a $5.5 million Wintario capital grant allocation to make cultural and recreational facilities more accessible to disabled people. A special public awareness program will be launched later this spring.

With these and other initiatives, there is every indication that the attention being paid to this special event will produce many programs of lasting benefit, both within government and throughout the community at large.

The Government affirms a commitment to meet the needs of developmentally handicapped children. Through a new program to encourage parental involvement and responsibility, families will participate in working out programs for their own children. Special Needs Agreements with parents will provide the vehicle for this initiative, and will also make increased funding available for the additional special services often required by these children.

The policies and programs of the Ministry of Health will continue to emphasize preventive care and public health. You will be asked to consider a new Health Protection Act to provide for a core package of public health services that will be common to all health units across Ontario.

A Mental Health Co-ordinator will be appointed to formulate new policies and plans relating to the development and delivery of Ontario's mental health services.

The extension of tele-medicine links between small and large hospitals, and of regional perinatal services throughout the province will ensure that the most up-to-date methods of care are readily available to the people of Ontario.

Le gouvernement adoptera des politiques et des programmes spéciaux visant à améliorer la prestation de ses services en français, à faire connaître ces services et à encourager la population francophone à les utiliser. C'est le ministère des Affaires intergouvernementales qui coordonnera ces efforts, et des fonds spéciaux seront affectés pour faciliter la création de nouveaux services en français, au sein du gouvernement et dans toute la collectivité franco-ontarienne.

New government policies on Native Affairs include a career development plan for Native people in Northern Ontario to provide opportunities for training and

permanent employment in the private sector, as well as in the field operations of the Ministry of Natural Resources.

Last November, the Minister of Labour tabled a comprehensive report on the Province's workmen's compensation laws. The recommendations have received wide public approval. The Government will introduce legislation, early in the Session, reflecting the major proposals in the report relating to benefit calculations and levels, and the structure and adjudication procedures of the Workmen's Compensation Board.

Major revisions to the Ontario Human Rights Code will be reintroduced for enactment. Among the measures are protections for the handicapped and for persons subject to harassment in a variety of situations. Existing protections against discrimination on grounds of marital status and age will be expanded.

The Children's Law Reform Act amendments, concerning child custody and access proceedings, which were given second reading at the last Session, will proceed to enactment. Complementary legislation will be presented to implement the Hague Convention regarding child kidnapping. As well, amendments will be made to the Reciprocal Enforcement of Maintenance Orders Act to provide more effective enforcement of orders throughout Canada, as recommended by the Uniform Law Conference of Canada.

A special bill will be introduced providing for civilian review and appeal procedures with respect to investigation of complaints against the police in Metro Toronto.

My Government will present a number of measures to improve the administration of its affairs. Legislation will be presented to integrate more closely the policies and programs of the Ministry of Housing with those operations of the Ministry of Intergovernmental Affairs that relate to municipal matters. This consolidation will also pave the way for introduction of a revised Planning Act. This important legislation, the product of an extensive consultation process, has already had thorough public review as the subject of a White Paper.

Proposals for the implementation of a policy on freedom of information and individual privacy will also be provided for consideration by this Assembly and by the general public. These will be in the form of a draft Freedom of Information bill, to be included in a government discussion paper. A response will be made to the Krever Commission report on the confidentiality of health information.

It is the Government's wish that the overall legislative program for the Session proceed efficiently and effectively, and that ample consideration be afforded items of due significance. In addition to those items already mentioned in this address, other important measures will include amendments to the Education Act and the Municipal Conflict of Interest Act.

Three major bills which did not proceed to enactment last year will be reintroduced, namely a revised Business Corporations Act, the Municipal Boundaries Negotiations Act and the Dangerous Goods Transportation Act. A Toronto Islands Act will pass into law certain recommendations of the Swadron Report received earlier this year. Essential changes will be brought forward with regard to the Election Act and the Election Finances Reform Act.

Honourable Members, this Assembly begins an important and demanding Session. I pray that in the discharge of your duties, in the months ahead, you remain mindful of the effect of your decisions on the future course of Ontario and Canada. The difficulties we face at home, while legitimate causes for concern, need not and must not obscure the fundamental strength of our economy, the tremendous potential of our human and natural resources, the exiciting and overwhelming hope for our future.

Through the leadership and efforts of my Ministers, and through the work of this Legislature, we must seek to build new national understanding. Through the will and spirit of the people of Ontario, we must help to achieve the growth and advancement that will sustain our province and our nation. This is the challenge we collectively face.

May Divine Providence attend your deliberations.

In our Sovereign's name, I thank you.

God bless the Queen and Canada.

His Honour was then pleased to retire.

FIFTH DAY

MONDAY APRIL 27TH, 1981

PRAYERS 2.00 O'CLOCK P.M.

In accordance with Standing Order 33 (b) Mr. Bradley tabled a petition requesting the referral of the Annual Report of the Ministry of Consumer and Commercial Relations for the year ending March 31, 1980, be referred to the Standing Committee on Administration of Justice. (*Sessional Paper No. 36*).

The following Bills were introduced and read the first time:—

Bill 8, An Act to amend The Labour Relations Act. *Mr. Mackenzie.*

Bill 9, An Act to amend The Labour Relations Act. *Mr. Mackenzie.*

Bill 10, An Act to amend The Labour Relations Act. *Mr. Mackenzie.*

Bill 11, An Act to amend The Labour Relations Act. *Mr. Mackenzie.*

Bill 16, An Act to amend The Labour Relations Act. *Mr. Mackenzie.*

Bill 17, An Act to amend The Employment Standards Act, 1974. *Mr. Martel.*

Mr. Cassidy moved, seconded by Mr. MacDonald,

That, pursuant to Standing Order 34, I move that the ordinary business of the House be set aside to discuss a matter of urgent public importance; namely, that there is a crisis in housing because home prices are rising to such levels that it is becoming impossible for most families to purchase homes; furthermore, the crisis results from the inaction of the government to control speculation and profiteering in the housing market and the refusal of the government to monitor and control the inflationary influx of foreign capital into Ontario's housing markets.

After hearing the arguments of the mover and the representatives of the other parties,

Mr. Speaker ruled that the matter is one which would be more properly discussed during the Throne Debate, particularly when he took note of the fact that Mr. Cassidy, the Leader of the Third Party, who filed this Notice of Motion, is scheduled to speak on the Throne Debate tomorrow or even today and will then have ample opportunity to deal with any subject he chooses in detail and at whatever length he finds necessary, rather than being limited to the 10 minutes provided by Standing Order 34.

He said he had listened very carefully to the presentations made this afternoon, and was not persuaded that he should change this opinion. He therefore declared the motion out of order.

The Order of the Day for resuming the Adjourned Debate on the Motion for an Address in Reply to the Speech of the Honourable the Lieutenant Governor at the opening of the Session, having been read,

The debate was resumed and, after some time,

Mr. Smith moved, seconded by Mr. Nixon,

That the motion be amended by adding the following thereto:

This House, however, regrets that the Speech from the Throne fails to recognize the most serious and fundamental problems facing Ontario today, and condemns the Government for:

—refusing to recognize Ontario's industrial decline, and the need for a definitive industrial strategy, as well as massive retraining programmes for Ontario workers.

—having no policies to help low and middle-income earners avoid further hardship from the effects of rapidly rising prices.

—presenting no specific programmes to help small businesses, farmers, and homeowners to deal with record-high interest rates.

—failing to address or act upon the crisis of escalating housing costs, which are making the dream of owning a home an impossibility to average Ontarians.

—proposing no legislation—despite a previous commitment—to provide adequate and definitive levels of severance pay for Ontario workers who are laid off their jobs.

—making no new or increased financial commitment toward the development of Ontario's health, social, and education sectors—specifically, toward hospitals, day care, services for the elderly, and post-secondary institutions.

—pursuing a shameful policy of harassment with regard to victims of the Government's mistake on ReMor Investments, instead of accepting proper responsibility for ensuring adequate and equitable compensation for these people.

—failing to protect against the sale of large amounts of Ontario's most valuable farmland to foreign buyers.

—undermining the provincial rent review programme by threatening to alter the present guidelines.

—placing excessive and unwise emphasis on the development of electricity to meet Ontario's future energy requirements, instead of utilizing abundant and indigenous renewable and alternative sources.

And therefore, this Assembly declares its total lack of confidence in the Government.

On motion by Mr. Cassidy,

Ordered, That the debate be adjourned.

The House then adjourned at 4.40 p.m.

The debate was resumed and, after some time,

Mr. Cassidy moved, seconded by Mr. Martel,

That the amendment to the Motion for an address in reply to the Speech from the Throne be amended by adding thereto the following:

And this House condemns the government:

1. For its failure to introduce a housing and land speculation tax and introduce other measures to curb the speculative profiteering and inflow of speculative funds from outside of Ontario which makes it impossible for average Ontario families to own a home of their own;

2. For its failure to provide universal access to health care and its absolute refusal to prohibit extra-billing by doctors above the OHIP rate;

3. For its failure to extend rent review to tenants in buildings built since 1975 and its obvious efforts to weaken or eliminate rent review protection for tenants;

4. For its failure to exercise its stewardship over the natural resources of Ontario through a policy of public ownership and development of our resources which would finance a Northern Ontario Tomorrow Fund and ensure the maximum return to the people of Ontario;

5. For its failure to provide for a meaningful reform of the pension system that will put needs of Ontario's citizens ahead of the profits of the insurance industry;

6. For its failure to undertake a comprehensive reform of social security and of workmen's compensation in Ontario that will provide rehabilitation and income protection for every citizen;

   and for all these reasons that this House has no confidence in the government.

He has been recently released and is living in Jerusalem, Israel. He is presently making a speaking tour of North America to promote brotherhood. He is also Secretary Chairman for Jewish/Ukranian Relations.

He has recently met with such organizations as the Canadian/Jewish Congress and the Ukranian/Canadian Committee among other organizations to promote harmony and tolerance among communities and peoples.

Mr. Speaker addressed the House as follows:—

On Tuesday last, Mr. Mancini raised a point of order concerning supplementary questions being redirected to another minister. I have had an opportunity to review the comments of the members participating in the discussion on the point of order and I have also reviewed and weighed carefully the remarks of my predecessor on this matter.

A minister to whom a question is put is given a wide latitude of discretion. He may answer a question, defer a question for further consideration or take it as notice, or he may decline to answer the question without stating a reason for the refusal. A minister may also refer a question not within his administrative responsibility to another minister.

The Chair enjoys discretion is allowing a question and certainly in allowing a supplementary question. It seems to me that if and when supplementaries are allowed, they should be a follow-up device flowing from the response of a particular minister. They should not be redirected to a different minister. Members who have questions for other ministers should seek to be recognized on a new question. I suggest that otherwise they are merely trying to get their questions in out of turn.

I ask for the co-operation of all members in this matter to ensure that the question period runs smoothly and with maximum participation from all members.

Yesterday, Mr. Roy, the Member for Ottawa East, on point of order, asked me to look into the question of whether or not the raising of matters of privilege during the Question Period should be included in the 60 minutes allowed for that period.

It is obvious, I suggest, that when the alleged breach of privilege relates to the question just asked, then, in accordance with Standing Order 18, it must be taken up immediately and must consequently be included within the 60 minutes. If the matter refers to something completely unrelated to the current questions, such as something said yesterday or something in a newspaper report, it should be taken up either before the Question Period or after.

1. The applications for Private Legislation related to Bills Pr44, Pr47 and Pr52 which received first reading in the Fourth Session of the Thirty-first Parliament;

RODERICK LEWIS, ESQ., Q.C. January 26, 1981
Clerk
Legislative Assembly
Parliament Buildings
Queen's Park
Toronto, Ontario

Dear Mr. Lewis

Re: Bill Pr47 of 1980, now Bill Pr3 of 1981, An Act to revive Sioux Petroleums, Limited

The undersigned, as Commissioners of Estate Bills as provided by The Legislative Assembly Act, R.S.O. 1970, c. 240, having had the above-noted Bill referred to us as Commissioners now beg to report thereon.

We have investigated the desirability of the proposed legislation. We are of the opinion that the provisions of the Bill are proper for carrying into effect its purpose and it is reasonable that the said Bill should pass into law. We are of that opinion notwithstanding that a parcel of land in Alberta, title to which is registered in the name of the corporation, may have become escheated, under the law of Alberta, to the Crown in the right of that province. We think the revival of the corporation is desirable so that it will have status to assert the title it will claim to the Alberta property.

We enclose a copy of the Bill which we have duly signed.

Yours very truly

A. R. JESSUP, J.A.

BERTHA WILSON, J.A.

And this House condemns the government:

1. For its failure to introduce a housing and land speculation tax and introduce other measures to curb the speculative profiteering and inflow of speculative funds from outside of Ontario which makes it impossible for average Ontario families to own a home of their own;

2. For its failure to provide universal access to health care and its absolute refusal to prohibit extra-billing by doctors above the OHIP rate;

3. For its failure to extend rent review to tenants in buildings built since 1975 and its obvious efforts to weaken or eliminate rent review protection for tenants;

4. For its failure to exercise its stewardship over the natural resources of Ontario through a policy of public ownership and development of our resources which would finance a Northern Ontario Tomorrow Fund and ensure the maximum return to the people of Ontario;

5. For its failure to provide for a meaningful reform of the pension system that will put needs of Ontario's citizens ahead of the profits of the insurance industry;

6. For its failure to undertake a comprehensive reform of social security and of workmen's compensation in Ontario that will provide rehabilitation and income protection for every citizen;

and for all these reasons that this House has no confidence in the government.

The amendment to the motion as follows:—

That the motion be amended by adding the following thereto:

This House, however, regrets that the Speech from the Throne fails to recognize the most serious and fundamental problems facing Ontario today, and condemns the Government for:

—refusing to recognize Ontario's industrial decline, and the need for a definitive industrial strategy, as well as massive retraining programmes for Ontario workers.

—having no policies to help low and middle-income earners avoid further hardship from the effects of rapidly rising prices.

—presenting no specific programmes to help small businesses, farmers, and homeowners to deal with record-high interest rates.

—failing to address or act upon the crisis of escalating housing costs, which are making the dream of owning a home an impossibility to average Ontarians.

—proposing no legislation—despite a previous commitment—to provide adequate and definitive levels of severance pay for Ontario workers who are laid off their jobs.

—making no new or increased financial commitment toward the development of Ontario's health, social, and education sectors—specifically, toward hospitals, day care, services for the elderly, and post-secondary institutions.

—pursuing a shameful policy of harassment with regard to victims of the Government's mistake on ReMor Investments, instead of accepting proper responsibility for ensuring adequate and equitable compensation for these people.

—failing to protect against the sale of large amounts of Ontario's most valuable farmland to foreign buyers.

—undermining the provincial rent review programme by threatening to alter the present guidelines.

—placing excessive and unwise emphasis on the development of electricity to meet Ontario's future energy requirements, instead of utilizing abundant and indigenous renewable and alternative sources.

And therefore, this Assembly declares its total lack of confidence in the Government.

THE EVENING SITTING

The House resolved itself into a Committee to consider the recommendations contained in the Eighth Report of the Select Committee on the Ombudsman:—

After some time, Mr. Speaker resumed the Chair, and the Chairman reported, That the Committee had directed him to report the following recommendations as amended:—

1. The Committee concurs in the recommendation that the Ministry of Health give prompt notice to all persons whose claims for benefits under R990 are in the future refused, full particulars of the appeal procedures available to them at the same time as the notice of refusal is communicated.[1] (Page 17 of the Report).

2. The Committee concurs in the recommendation that the Legislative Assembly approve and adopt the recommendation of the Ombudsman and that the housing authority in question give the complainant and his family immediate accommodation in a suitable geared to income housing unit; and if a suitable unit is not available immediately, that the housing authority accommodate the family in the first such unit which becomes available.[2] (Page 37 of the Report).

3. The Committee concurs in the recommendation that the Ontario Housing Corporation immediately conduct a review and study of its manuals and the decision making functions of housing authorities in particular for the purpose of amending its manuals to give housing authorities more guidance in order that the rules of administrative fairness will be more strictly adhered to.[3] (Page 37/38 of the Report).

4. The Committee concurs in the recommendation that the Workmen's Compensation Board revoke its decision dated August 30, 1977 and extend to the complainant the benefit of reasonable doubt to grant entitlement for an incident arising out of and in the course of his employment on April 9, 1976 which aggravated a pre-existing back condition and award the appropriate compensation benefits.[4] (Page 46 of the Report).

5. The Committee concurs in the recommendation that the Workmen's Compensation Board vary its decision dated January 12, 1978 and grant the complainant temporary disability benefits from the date of his accident (October 3, 1975) until such time as medical evidence indicates that the complainant's condition is stabilized. At that time the complainant should then be granted a permanent disability award in an amount to be determined by the Workmen's Compensation Board.[5] (Page 50 of the Report).

The House then adjourned at 1.00 p.m.

TWENTY-FOURTH DAY

MONDAY, MAY 25TH, 1981

PRAYERS 2.00 O'CLOCK P.M.

The leaders of the three parties represented in the House paid tribute to the late David Lewis, former national leader of the New Democratic Party, who passed away on Saturday, May 23rd, 1981.

Mr. Speaker addressed the House as follows:—

On Thursday and Friday of last week, several matters were raised which I agreed to take under consideration:—

First, there was the point raised by Mr. Reid, Member for Rainy River, who raised what he considered to be a matter of privilege, perhaps more properly a contempt of the House, relating to the non-appearance of two public servants whose appearance was requested by the Public Accounts Committee. I was asked to look into this and report back to the House.

I must point out again, as previous Speakers have, that it is this House which must deal with such questions, not the Speaker.

The problem of what constitutes a valid matter of privilege or a valid point of order seems to still cause confusion. Many Members feel that if they are aggrieved by another Member in the House, they should rise on a matter of privilege. While this may constitute a point of order, it is certainly not a matter of privilege. If the words complained of offend any of the rules or precedents relating to order, then it is a valid point of order which must be raised immediately, not at a later date. It must be something that is genuinely out of order according to the rules of the House and not simply used as a method of gaining the floor. Standing Order 19 (d) contains a list of actions which have been held to be out of order in debate. This list is not all inclusive but does set out the most glaring breaches of order, such as making allegations

against another Member; imputing false or unavowed motives to another Member; charging another Member with uttering a deliberate falsehood, or using abusive or insulting language of a nature likely to create disorder.

Privilege is entirely different as a breach must affect one of the privileges of Parliament and its Members. I direct the attention of the Members to definitions of privilege in Standing Order 18 (a) and in the Nineteenth Edition of May's Parliamentary Practice:

Standing Order 18 (a) defines privilege as follows:—

> "Privileges are the rights enjoyed by the House collectively and by the Members of the House individually conferred by the Legislative Assembly Act and other Statutes, or by practice, precedent, usage and custom".

May's Parliamentary Practice, Nineteenth Edition, reads in part as follows:—

> "Parliamentary privilege is the sum of the peculiar rights enjoyed by each House, collectively as a constituent part of the High Court of Parliament, and by members of each House individually, without which they could not discharge their functions, and which exceed those possessed by other bodies or individuals. Thus privilege, though part of the law of the land, is to a certain extent an exemption from the ordinary law. The particular privileges of the Commons have been defined as—"The sum of the fundamental rights of the House and of its individual Members as against the prerogatives of the Crown, the authority of the ordinary courts of law and the special rights of the House of Lords.".

Examples of breaches of privileges are:

(i) If an action for slander were brought against a Member for remarks made by him in the House, or

(ii) When a Member raises a matter of privilege to correct a newspaper report in which he claims to have been misquoted.

In the latter case, he really seeks to set the matter straight and has no intention of moving a motion with respect thereto. The procedure of moving a motion to bring a newspaper writer or editor before the bar of the House is one which has not been made use of in any jurisdictions in the Commonwealth for many years.

The second matter was raised by the Leader of the New Democratic Party who suggested that in blocking the first reading of Mr. Philip's bill on Thursday, the party supporting the government was blocking a private member from bringing an item of business before the House and of participating in the Private Members' Afternoon. The vote on Thursday only decided that the bill would not be given introduction and first reading at that time and, in fact, it was introduced without objection on Friday. It is therefore obvious that the Member is not blocked from bringing his business before the House and he is certainly not prevented from participating in the consideration of the Private Members' Business as he may not only use the bill in question if and when his turn is reached on the ballot, if he so wishes, or any one of the numerous bills which he already has on the Order Paper.

Finally, I was asked to rule on whether or not Mr. Philip's bill constitutes a money bill. I have examined it carefully and taken legal opinion and have come to the conclusion that as the bill attempts to confer no power on the government which it did not already have and merely requests the government to exercise that power, it cannot be considered to direct an expenditure. In fact, it appears to me that as it has no operational effect it is of no more force than a Resolution and might be more properly introduced as such, requesting the government to take the necessary action.

The following Bill was introduced and read the first time:—

Bill 83, An Act to amend The Landlord and Tenant Act. *Mr. Boudria.*

The Answer was tabled to Question No. 90 (*See Hansard*).

A Return was tabled to Question No. 91 (*Sessional Paper No. 86*).

On motion by Mr. Wells, seconded by Mr. McMurtry,

Ordered, That, notwithstanding any Standing Order of the House, Estimates for the Provincial Secretariat for Social Development be referred to the Standing Committee on Social Development, and be taken into consideration for up to five hours, following the Estimates of the Ministry of Culture and Recreation.

The Order of the Day for resuming the Adjourned Debate on the motion That this House approves in general the Budgetary policy of the Government, having been read,

The debate was resumed, and, after some time,

Mr. Peterson moved, seconded by Mr. Sweeney, that the motion be amended by deleting all the words following "that", and adding thereto the following:

This House regrets that the 1981 Budget fails to recognize the most serious and fundamental problems facing Ontario today, and condemns the Government for:

—profiteering from increases in the price of gasoline by the imposition of an *ad valorem* gasoline tax which compounds the effect of rising energy prices on Ontario's consumers.

—its deliberate betrayal of the Premier's commitment of February 2, 1981 "to combat inflation, through . . . avoiding tax increases", by adding a significant burden to Ontario's taxpayers through a major increase in the personal income tax.

—further increasing OHIP premiums, so that this regressive form of taxation has now risen 109 per cent in five years or at an annual rate of 21.8 per cent, placing an especially unfair burden on low-income earners.

—jeopardizing the quality of Ontario's universities and colleges by continuing to fund inadequately even the basic requirements of the post-secondary system.

—refusing to recognize Ontario's industrial decline, and the need for a definitive industrial strategy, as well as massive retraining programmes for Ontario workers.

—having no policies to help low and middle-income earners avoid further hardship from the effects of rapidly rising prices.

—presenting no specific programmes to help small businesses, farmers and homeowners to deal with record-high interest rates.

—failing to cut wasteful expenditures, while increasing the deficit by almost 25 per cent.

and therefore this Government lacks the confidence of the House.

On motion,

Ordered, That, the debate be adjourned.

Debate on the motion for Second Reading of Bill 7, An Act to revise and extend Protection of Human Rights in Ontario was resumed,

And after some time the motion having been put was declared carried and the Bill was accordingly read the second time and,

Ordered referred to the Standing Committee on Resources Development.

A debate arose on the motion for Second Reading of Bill 48, An Act respecting Massey-Ferguson Limited, and after some time was adjourned.

The House then adjourned at 6.00 p.m.

The debate was resumed and, after some time,

Mr. Wildman moved, seconded by Mr. Grande,

That the amendment to the motion be amended by striking out all the words after "That" and substituting the following therefore:—

This House rejects the increase in personal income taxes, OHIP premiums and regressive taxes and the refusal to increase taxes on private corporations and to end corporate tax concessions; deplores the failure to provide relief from high interest rates and to institute a housing speculation tax; condemns the lack of commitment to rebuilding our manufacturing sector and to creating employment opportunities; censures the continuing giveaway and mismanagement of our natural resources; and finally, disapproves of the underfunding of health and social services and the increasing dependence on user fees, and for these reasons, the government no longer enjoys the confidence of this House.

The debate continued and after some time was adjourned.

While I find this rather difficult to imagine, the Member did raise an interesting point and so the petition has been given the benefit of the doubt and will be entered as received today. *(Sessional Paper No. 253)* (Tabled November 2, 1981).

In an effort to reach an acceptable consensus on the constitutional issue which meets the concerns of the federal government and a substantial number of provincial governments, the undersigned governments have agreed to the following:

(1) Patriation

(2) Amending Formula:

- Acceptance of the April Accord Amending Formula with the deletion of Section 3 which provides for fiscal compensation to a province which opts out of a constitutional amendment.

- The Delegation of Legislative Authority from the April Accord is deleted.

(3) Charter of Rights and Freedoms:

- The entrenchment of the full Charter of Rights and Freedoms now before Parliament with the following changes:

(a) With respect to Mobility Rights the inclusion of the right of a province to undertake affirmative action programs for socially and economically disadvantaged individuals as long as a province's employment rate was below the National average.

(b) A "notwithstanding" clause covering sections dealing with Fundamental Freedoms, Legal Rights and Equality Rights. Each "notwithstanding" provision would require reenactment not less frequently than once every five years.

Le 5 novembre 1981

Dans un effort pour en arriver à un consensus acceptable sur la question constitutionnelle qui satisfasse les préoccupations du gouvernement fédéral et d'un nombre important de gouvernments provinciaux, les soussignés se sont entendus sur les points suivants:

(1) Le rapatriement de la Constitution

(2) La formule d'amendement

- La formule d'amendement proposée dans l'Accord d'avril a été acceptée en supprimant l'article 3, qui prévoit une compensation fiscale à une province qui se retire d'un amendement constitutionnel.

(c) Nous sommes convenus que l'article 23, qui a trait au droit à l'instruction dans la langue de la minorité, s'appliquera dans nos provinces.

(4) The provisions of the Act now before Parliament relating to Equalization and Regional Disparities, and Non Renewable Natural Resources, Forestry Resources and Electrical Energy would be included.

(5) A constitutional conference as provided for in clause 36 of the Resolution, including in its agenda an item respecting constitutional matters that directly affect the Aboriginal peoples of Canada, including the identification and definition of the rights of those peoples to be included in the Constitution of Canada, shall be provided for in the Resolution. The Prime Minister of Canada shall invite representatives of the Aboriginal peoples of Canada to participate in the discussion of that item.

Dated at Ottawa this 5th day of November, 1981.

SEVENTY-FIFTH DAY

FRIDAY, NOVEMBER 13TH, 1981

PRAYERS 10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

On Thursday, November 5th, the Member for Ottawa Centre and the Member for Sudbury East asked for direction with respect to occurrences on Tuesday evening, November 3rd. I was asked to say whether I considered an attempt to raise a point of order constitutes debate, the implication being that if not, the words in Standing Order 36, "the original question shall be put forthwith and decided without amendment or debate" would not exclude such action. The answer, of course, is "no". However, when I declined to hear from the Member for Brant-Oxford-Norfolk and the Member of Ottawa Centre on Tuesday night, I felt so strongly that the wording of Standing Order 36 is so very clear that there could be nothing out of order, and the House is aware that many times my predecessors have declined to hear points of order when they were convinced that nothing was in fact out of order. I felt and still feel that it was analogous to a Member who has attained the floor in a proper way moving the adjournment of the House for the purpose of putting the question under debate out of consideration completely. I submit that on such a motion there can be nothing out of order and the Speaker would be correct in ruling, as many have done, that he will not hear a point of order at that time. On Tuesday night I sensed the mood of the House was fast reaching the point of grave disorder and I decided it best to recess for a cooling-off period and also to have the opportunity of consulting with the House Leaders. During this recess I received submissions from them, and although still convinced that my interpretation of Standing Order 36 was correct, and in order to facilitate the business of the House, I agreed to proceed, by agreement with the House Leaders, to hear the two alleged points of order and deal with them in the House.

Apparently this willingness on my part to consult and to co-operate is seen by some as a sign of indecision. I truly regret this. I respectfully submit that surely it is the duty and responsibility of the Speaker to ensure the business of the House is carried on with dignity in a spirit of co-operation and in an expeditious manner. I submit this was not the case on Tuesday evening November 3rd. The Speaker can only preserve decorum and order by having the co-operation of all Honourable Members. I further submit that had I not recessed the House at the time, and sought consultation and advice, there would indeed have been a complete breakdown and the business of the House would have ground to halt.

The Member for Ottawa Centre made reference to the fact that he had been re-admitted after having been asked to withdraw from the service of the House. I would remind the Member that there is no lack of precedent for this action as he may well remember, having been re-admitted to the House by Speaker Reuter on June 22nd, 1972 after representations had been made on his behalf by his former Leader.

The following Bill was introduced and read the first time:—

Bill 167, An Act to Validate certain Road Closings and Conveyances in the City of Ottawa. *Mr. Bennett.*

The Answers were tabled to Questions Nos. 176, 180 and 183 (*See Hansard*).

Returns to Questions were tabled as follows:—

No. 181 (*Sessional Paper 267*).

No. 182 (*Sessional Paper 268*).

No. 184 (*Sessional Paper 269*).

The House, according to Order, resolved itself into the Committee of Supply, to consider Estimates of the Ministry of Northern Affairs,

and after some time,

Mr. Speaker resumed the Chair, and the Chairman reported progress, also, That the Committee had directed him to ask for leave to sit again.

Bill Pr40, An Act respecting Tordom Corporation. *Mrs. Scrivener.*

The Answers were tabled to Questions Nos. 175 and 189 *(See Hansard)*.

The Interim Answers were tabled to Questions Nos. 186 and 192 to 220 inclusive *(Approximate date information available December 18th, 1981)*.

Mr. MacDonald moved, seconded by Mr. Mackenzie,

NINETY-FOURTH DAY

THURSDAY, DECEMBER 10TH, 1981

PRAYERS 10.00 O'CLOCK A.M.

Mr. Speaker addressed the House as follows:—

I would like to address all honourable Members on the matter raised yesterday with respect to the release of information on Wintario Grants.

Members were rising on what they considered to be matters of privilege. I must say that I find some difficulty in recognizing what privileges of the Members have been abused. At best, there may be some disagreement with the method of distributing the information on these grants by the Minister and his staff. I was asked to refer the matter to the Procedural Affairs Committee. At the time I had some reservations as to my authority to do so. However, after reviewing the terms of reference of that Committee I find that I do indeed have that authority.

In my opinion I must inform the Members that I do not consider this to be a proper matter to be referred to the Committee. As I stated earlier there seems to be a disagreement with the way the Minister and his staff have handled the distribution of the information on Wintario Grants. I believe this matter should properly be brought before the Committee considering the Minister's estimates. Since they have completed their work I suggest to the Members that there is still the concurrence Debate on the Minister's estimates now on the Order Paper. However, I think the Minister is now well aware of the dissatisfaction of the House.

The following Bills were read the third time and were passed:—

Bill 104, An Act to amend the Highway Traffic Act.

Bill 107, An Act to amend the Police Act.

Bill 136, An Act to amend the Milk Act.

Bill 162, An Act to amend the Ministry of Consumer and Commercial Relations Act.

Bill 171, An Act respecting certain International Bridges.

Bill 176, An Act to amend the Co-operative Corporations Act.

The following Bills were read the second time and *Ordered for Third Reading*:—

Bill Pr24, An Act respecting the Greater Niagara General Hospital.

Bill Pr26, An Act to revive Waltham Creative Printing Limited.

Bill Pr38, An Act to incorporate Emmanuel Bible College.

Bill Pr41, An Act to revive The Atlas Hotel Company Limited.

The following Bills were read the third time and were passed:—

Bill Pr24, An Act respecting the Greater Niagara General Hospital.

Bill Pr26, An Act to revive Waltham Creative Printing Limited.

Bill Pr38, An Act to incorporate Emmanuel Bible College.

Bill Pr41, An Act to revive The Atlas Hotel Company Limited.

The following Bill was read the second time:—

Bill 183, An Act to incorporate The George R. Gardiner Museum of Ceramic Art. *Ordered for Third Reading*.

Debate on the motion for Second Reading of Bill 178, An Act to amend the Highway Traffic Act was adjourned.

Bill 194, An Act to amend certain Acts in respect of Planning and related Matters. *Mr. Bennett.*

Bill 195, An Act respecting Assessment Review Procedures. *Mr. Epp.*

Mr. Cassidy moved, seconded by Mr. McClellan,

That this House condemns the Government for the decision announced by the Minister of Health to return Ontario to profit-motivated health care and to establish discriminatory hospital services that will threaten the health of the majority of Ontario citizens and, further, that this House condemns the Government for fundamentally undermining universal hospital care contrary to principles and agreements outstand-

ing with the federal government and contrary to promises made by the Premier only hours previously that his Government would not impose user fees for health services, and for these reasons this House no longer has confidence in the Government.

NINETY-SEVENTH DAY

TUESDAY, DECEMBER 15TH, 1981

PRAYERS 2.00 O'CLOCK P.M.

Mr. Speaker addressed the House as follows:

I would like to address all Honourable Members on the alleged matter of privilege brought before the House by the Member for Rainy River (Mr. Reid) with respect to the newspaper article in the Globe and Mail of December 12th, 1981 relating to the remarks made outside the House by the Attorney General.

After carefully reviewing the article I find the remarks by the Attorney General, while perhaps unfortunate, hardly constitute a breach of privilege. I might say to the Members of the House that, had the remarks been made in the House during the debate on the Highway Traffic Act it is likely that I would have called on the Minister to withdraw the allegations against the official Opposition as being out of order in accordance with Standing Order No. 19 (d). Since these statements were made outside the House I can hardly be expected to rule them out of order as the very fact that they were made outside the House takes them outside my jurisdiction. I find that I am reinforced in this opinion by Beauchesne's Parliamentary Rules and Forms, Fifth Edition at page 12, paragraph 19 (3) "Statements made outside the House by a Member may not be used as the base for a question of privilege."

The Member made reference to the fact that the former Member for High Park-Swansea, Mr. Ziemba, made comments in a similar vein directed at the Premier and the Government. After reviewing the records of Debates-1975 at Page 747, I find that even in that situation the Speaker of the day stated that the matter happened outside the House and, therefore, he had no control over it. However, at Page 768, Mr. Ziemba rose on a point of privilege and apologized to the Premier for his statements made outside the House. He was not ordered by the Speaker at the time to withdraw the comments.

I might also add that on three separate occasions that I have been able to discover, Ontario Speakers have ruled that statements made by Members outside the House are not subject to the rules respecting unparliamentary language (which would include imputing motives):

> On March 9th, 1965, Mr. Speaker Morrow ruled that "if it (accusation by one Member that another is a liar) is made outside of the House there does not have to be a retraction in the House. If the statement was made in the House, then I would ask the Member to withdraw it in the House."
>
> On October 9th, 1969, Mr. Speaker Cass ruled as follows: "Yesterday, the Member for Sudbury East raised what he deemed to be a matter of privilege, concerning statements made by the Member for Nickel Belt outside the House. I pointed out to him at the time that I knew of no privilege of the House or of the Members that is offended by remarks made by a Member outside the House."
>
> On October 6th, 1980, Mr. Speaker Stokes ruled: "I am sure it is regrettable any time any Member of the House accuses another Member of telling a false-

hood. However, it was something that was said outside the House. The Member is responsible for what he says out there and that is something over which we have no control here in the House. If he does not choose to withdraw the remark or apologize for it, there is nothing I can do. It was done outside the House."

Mr. Eves from the Standing Committee on Regulations and Other Statutory Instruments presented the Committee's Second Report 1981. *(Sessional Paper No. 119 Part 2).*

Mr. Breithaupt from the Select Committee on Company Law presented the Committee's Fifth Report on Accident and Sickness Insurance. *(Sessional Paper No. 313).*

The following Bill was introduced and read the first time:—

Bill 200, An Act to amend the Municipal Elections Act. *Mr. Newman.*

The Answers were tabled to Questions Nos. 192 to 220 inclusive and to No. 276. *(See Hansard).*

The following Bills were read the second time:—

Bill 151, An Act to amend the Credit Unions and Caisses Populaires Act. *Ordered for Committee of the Whole House.*

Bill 191, An Act to amend the Municipality of Metropolitan Toronto Act. *Ordered for Committee of the Whole House.*

The House resolved itself into a Committee to consider a certain Bill and, after some time therein, Mr. Speaker resumed the Chair, and the Chairman reported progress on Bill 151, An Act to amend the Credit Unions and Caisses Populaires Act.

Ordered, That the Report be now received and adopted.

With unanimous consent, the House reverted to motions.

On motion by Mr. Wells,

Ordered, That the Standing Committee on Regulations and other Statutory Instruments be authorized to sit tonight, Tuesday, December 15th, 1981.

On motion by Mr. Wells,

Ordered, That the Standing Committee on Social Development be authorized to sit tomorrow morning, Wednesday, December 16th, 1981.

The House resolved itself into a Committee to consider a certain Bill,

THE EVENING SITTING

8.00 O'CLOCK P.M.

After some time, Mr. Speaker resumed the Chair, and the Chairman reported, That the Committee had directed him to report the following Bill with certain amendments:—

Bill 151, An Act to amend the Credit Unions and Caisses Populaires Act.

Ordered, That the Report be now received and adopted.

The amendment to the motion as follows:—

That, the motion be amended by deleting all the words following "that", and adding thereto the following:

This House regrets that the 1981 Budget fails to recognize the most serious and fundamental problems facing Ontario today, and condemns the Government for:

—profiteering from increases in the price of gasoline by the imposition of an *ad valorem* gasoline tax which compounds the effect of rising energy prices on Ontario's consumers.

—its deliberate betrayal of the Premier's commitment of February 2, 1981 "to combat inflation, through . . . avoiding tax increases", by adding a significant burden to Ontario's taxpayers through a major increase in the personal income tax.

—further increasing OHIP premiums, so that this regressive form of taxation has now risen 109 per cent in five years or at an annual rate of 21.8 per cent, placing an especially unfair burden on low-income earners.

—jeopardizing the quality of Ontario's universities and colleges by continuing to fund inadequately even the basic requirements of the post-secondary system.

—refusing to recognize Ontario's industrial decline, and the need for a definitive industrial strategy, as well as massive retraining programmes for Ontario workers.

—having no policies to help low and middle-income earners avoid further hardship from the effects of rapidly rising prices.

—presenting no specific programmes to help small businesses, farmers and homeowners to deal with record-high interest rates.

—failing to cut wasteful expenditures, while increasing the deficit by almost 25 per cent.

and therefore this Government lacks the confidence of the House,

The Honourable the Lieutenant Governor was then pleased to deliver the following gracious speech:—

Mr. Speaker and Members of the Legislative Assembly:

I am pleased to address you on this occasion, and to review some of the activities of this First Session of the Thirty-Second Parliament of Ontario.

In the past year and more, the major issues for Ontario, as for other Provinces, have been matters of wide national significance, and the strength of our nation has been tested on several fronts.

The tensions of the Constitutional Debate, which had dominated the affairs of the nation, seemed to increase rather than diminish in the eyes of Canadians following the decision of the Supreme Court of Canada on September 28th. In light of the accord of November 5th, signed by nine of the Provinces and the Federal Government, the long-standing support of all sides of this Legislature for Ontario's basic position may be proudly placed on the record.

Ontarians rejoice with the rest of the nation on the passage of the Constitutional resolution by the Federal Parliament. We look forward to the historic day of patriation.

La joie éprouvée par la population de L'Ontario au moment où le Canada est à la veille de se doter d'une nouvelle constitution est teintée de regrets car le gouvernement du Québec est en désaccord avec le reste du pays. Nous espérons sincèrement et ardemment que l'on trouvera bientôt un terrain d'entente qui assurera, à cet égard, l'unité de l'ensemble du Canada et de l'ensemble des Canadiens.

Financial matters and the economy in general have been of primary concern throughout the year. Ontario shares, with the other nine Provinces, concern about large-scale reductions in Federal transfer payments, as proposed in current negotiations and in the recent Federal budget. Ontario has, moreover, expressed strong views on the negative aspects of the budget itself, in relation to providing needed stimulus for investment and economic development, and has urged that specific measures be reviewed.

Within its capacity to do so, the Province has adopted a number of measures to maintain economic stability and encourage growth. These activities have been largely consolidated in the new BILD program, which was established at the beginning of the year. The Board of Industrial Leadership and Development is responsible for designating specific projects within a total amount of $1.5 billion over 5 years, to be spent by government and the private sector, to give increasing vitality and necessary redirection to the Ontario economy.

After the first nine months, the record of the BILD program stood at $614 million in committed funds for projects over the 5-year period, of which $145 million will go to approved projects in the current fiscal year. BILD funding has stimulated private sector and other government investments to the extent of a further $275 million.

Within the BILD program, the Government has embarked on a wide range of projects, in such areas as communications technology (including Telidon), forestry, agricultural education, industrial and agricultural storage and packing, community development corporations, youth employment counselling, mineral research and development, tourism marketing, alternative transportation fuels, and development of a world-scale biotechnology company.

The Government has every confidence in the contribution of these initiatives, and of the BILD program as a whole, toward increasing the long-term productive potential of the Province's economy.

The economic pressures during the course of the year have been hard on all sides. Sustained high interest rates, which have only recently eased downwards, dealt a particularly harsh blow to farmers and homeowners, prompting a need for supportive measures.

Low prices exacerbated the credit problems faced by livestock producers, whose income accounts for more than one-third of farm gate receipts. Under an emergency plan announced in June, the Province allocated $37 million for cash payments to see beef producers through this hardship. As of December 1st, an additional $20 million is being made available to cow-calf producers, to help maintain the stability of the beef industry, in the absence of an adequate national program.

Among measures taken during the year to meet needs in the housing field were: the Ontario Neighbourhood Improvement Program, the Ontario Rental Construction Loan Program, and the Residential Energy Advisory Program. Reductions in the differential between rural and urban hydro rates have been authorized under amendments to the Power Corporation Act.

Legislation was passed to enlarge the mandate of the former Ministry of Housing to incorporate municipal affairs. A new approach to amalgamation or boundary disputes between municipalities is now law. The new Planning Act has had second reading and will receive Committee consideration over the winter.

In order to ensure greater participation by Ontario in the Canadian petroleum industry, and as an investment in the Province's future, the Government has entered into arrangements for the purchase of 25 per cent of the shares of the Sun Company Incorporated, Pennsylvania. Under the proposal, as announced, other Canadian investment will be sought to bring the level of Canadian ownership of shares in Suncor to 51 per cent in the near future.

The shift from more traditional industries to new technologies is making itself felt. In certain sectors of the economy, the impact of these changes has resulted in harmful employee lay-offs. At the same time, the demand in newer areas, and particularly in advanced technology skills, is rapidly increasing.

Our educational institutions have a crucial role to play in helping society to meet these changes. Two studies, commissioned by the Government last year, were published this fall, namely the report of the Secondary Education Review Project and the final report of the Committee on the Future Role of Universities in Ontario.

Various programs are in place to forge stronger links between the educational and industrial sectors. Over $3 million in BILD funds have been allocated to the colleges of applied arts and technology to support 320 training programs. More than 12,250 training positions have been created.

As well, $8 million in BILD funds have been used to provide technology equipment in the colleges, including items for electronics engineering technology programs, a robotics and fluid power laboratory, computer-controlled metal turning and milling machines and equipment for a videotex training centre.

Tourism in Ontario had the best year ever in 1981, with especially high gains in visits from the United States. Apart from the favourable exchange rate on U.S.

funds, we can point to the appeal of the "Ontario . . . yours to discover" emblem and campaign as having a lot to do with this success.

The report of the Royal Commission on Pensions, published early this year, has received wide attention. A first response has since been prepared by a Select Committee of the Legislature, with recommendations for implementation proposals.

Pensioners, lower-income earners and persons on fixed incomes have been granted a new home heating tax credit to protect against cost increases, through amendments to the Ontario Pensioners Property Tax Assistance Act and the Income Tax Act. About 1.4 million households will benefit from these measures.

Standing Committees of the House have given thorough consideration to the Human Rights Code 1981, and to new legislation for civilian review of complaints against the police, the latter being a pilot project specifically for Metropolitan Toronto.

The revisions to the Human Rights Code are among the most extensive in its 19-year history, and now include handicap, marital and family status, as prohibited grounds of discrimination, among other provisions. In passing this legislation, this House can feel justifiably proud of a statute which reflects the high public conscience of Ontario's citizens.

Services for Francophone citizens have been markedly improved. An advertising campaign and the new "Renseignements Ontario" program have served an extremely useful purpose in promoting services available in French throughout the government. The right to use French in civil trials, to come into effect next April 1st, will cover 80 per cent of Ontario's Francophone population. Access to bilingual criminal trials is already available to 100 per cent of the French-speaking population.

Administration of the government-wide customer service program is now concentrated in a new Service Development Division of the Ministry of Government Services, reinforcing the continuing high priority of this aspect of government operations.

The International Year of Disabled Persons received widespread recognition throughout the community. A government-sponsored advertising campaign to heighten public awareness and participation met with tremendous success. New initiatives affecting several existing government programs for disabled persons included the extension of basic eligibility for family benefits, additional attendant care services, improved access to provincial parks and revised rules for sales tax rebates on vehicles for use by the disabled.

Long-lasting benefits to the disabled will also derive from amendments to regulations under the Building Code for better access to newly constructed buildings, and from a Wintario capital grant for improvements to public cultural and recreational facilities.

Honourable Members, these and other matters have provided a full agenda for this Legislature throughout the Session. They are indicative of the wide concerns that prevail in our large and complex society. The demands on government, and the

responsibilities you bear in responding to them, have been considerable and, at times, onerous. I commend your sense of duty and the progress you have achieved.

In closing, may I take this opportunity to wish you a safe and pleasant holiday season.

In our Sovereign's name, I thank you.

I now declare this Session prorogued.

The Government House Leader then said:—

Mr. Speaker and Members of the Legislative Assembly:

It is the will and pleasure of the Honourable the Lieutenant Governor that this Legislative Assembly be prorogued and this Legislative Assembly is accordingly prorogued.
